LAWTON U.S.A

A few shitty years from now.

Set in the fading suburbs of contemporary America,
Some Odd Dollars is a stylish, hard hitting crime drama about fate,
fortune, betrayal, and second chances.

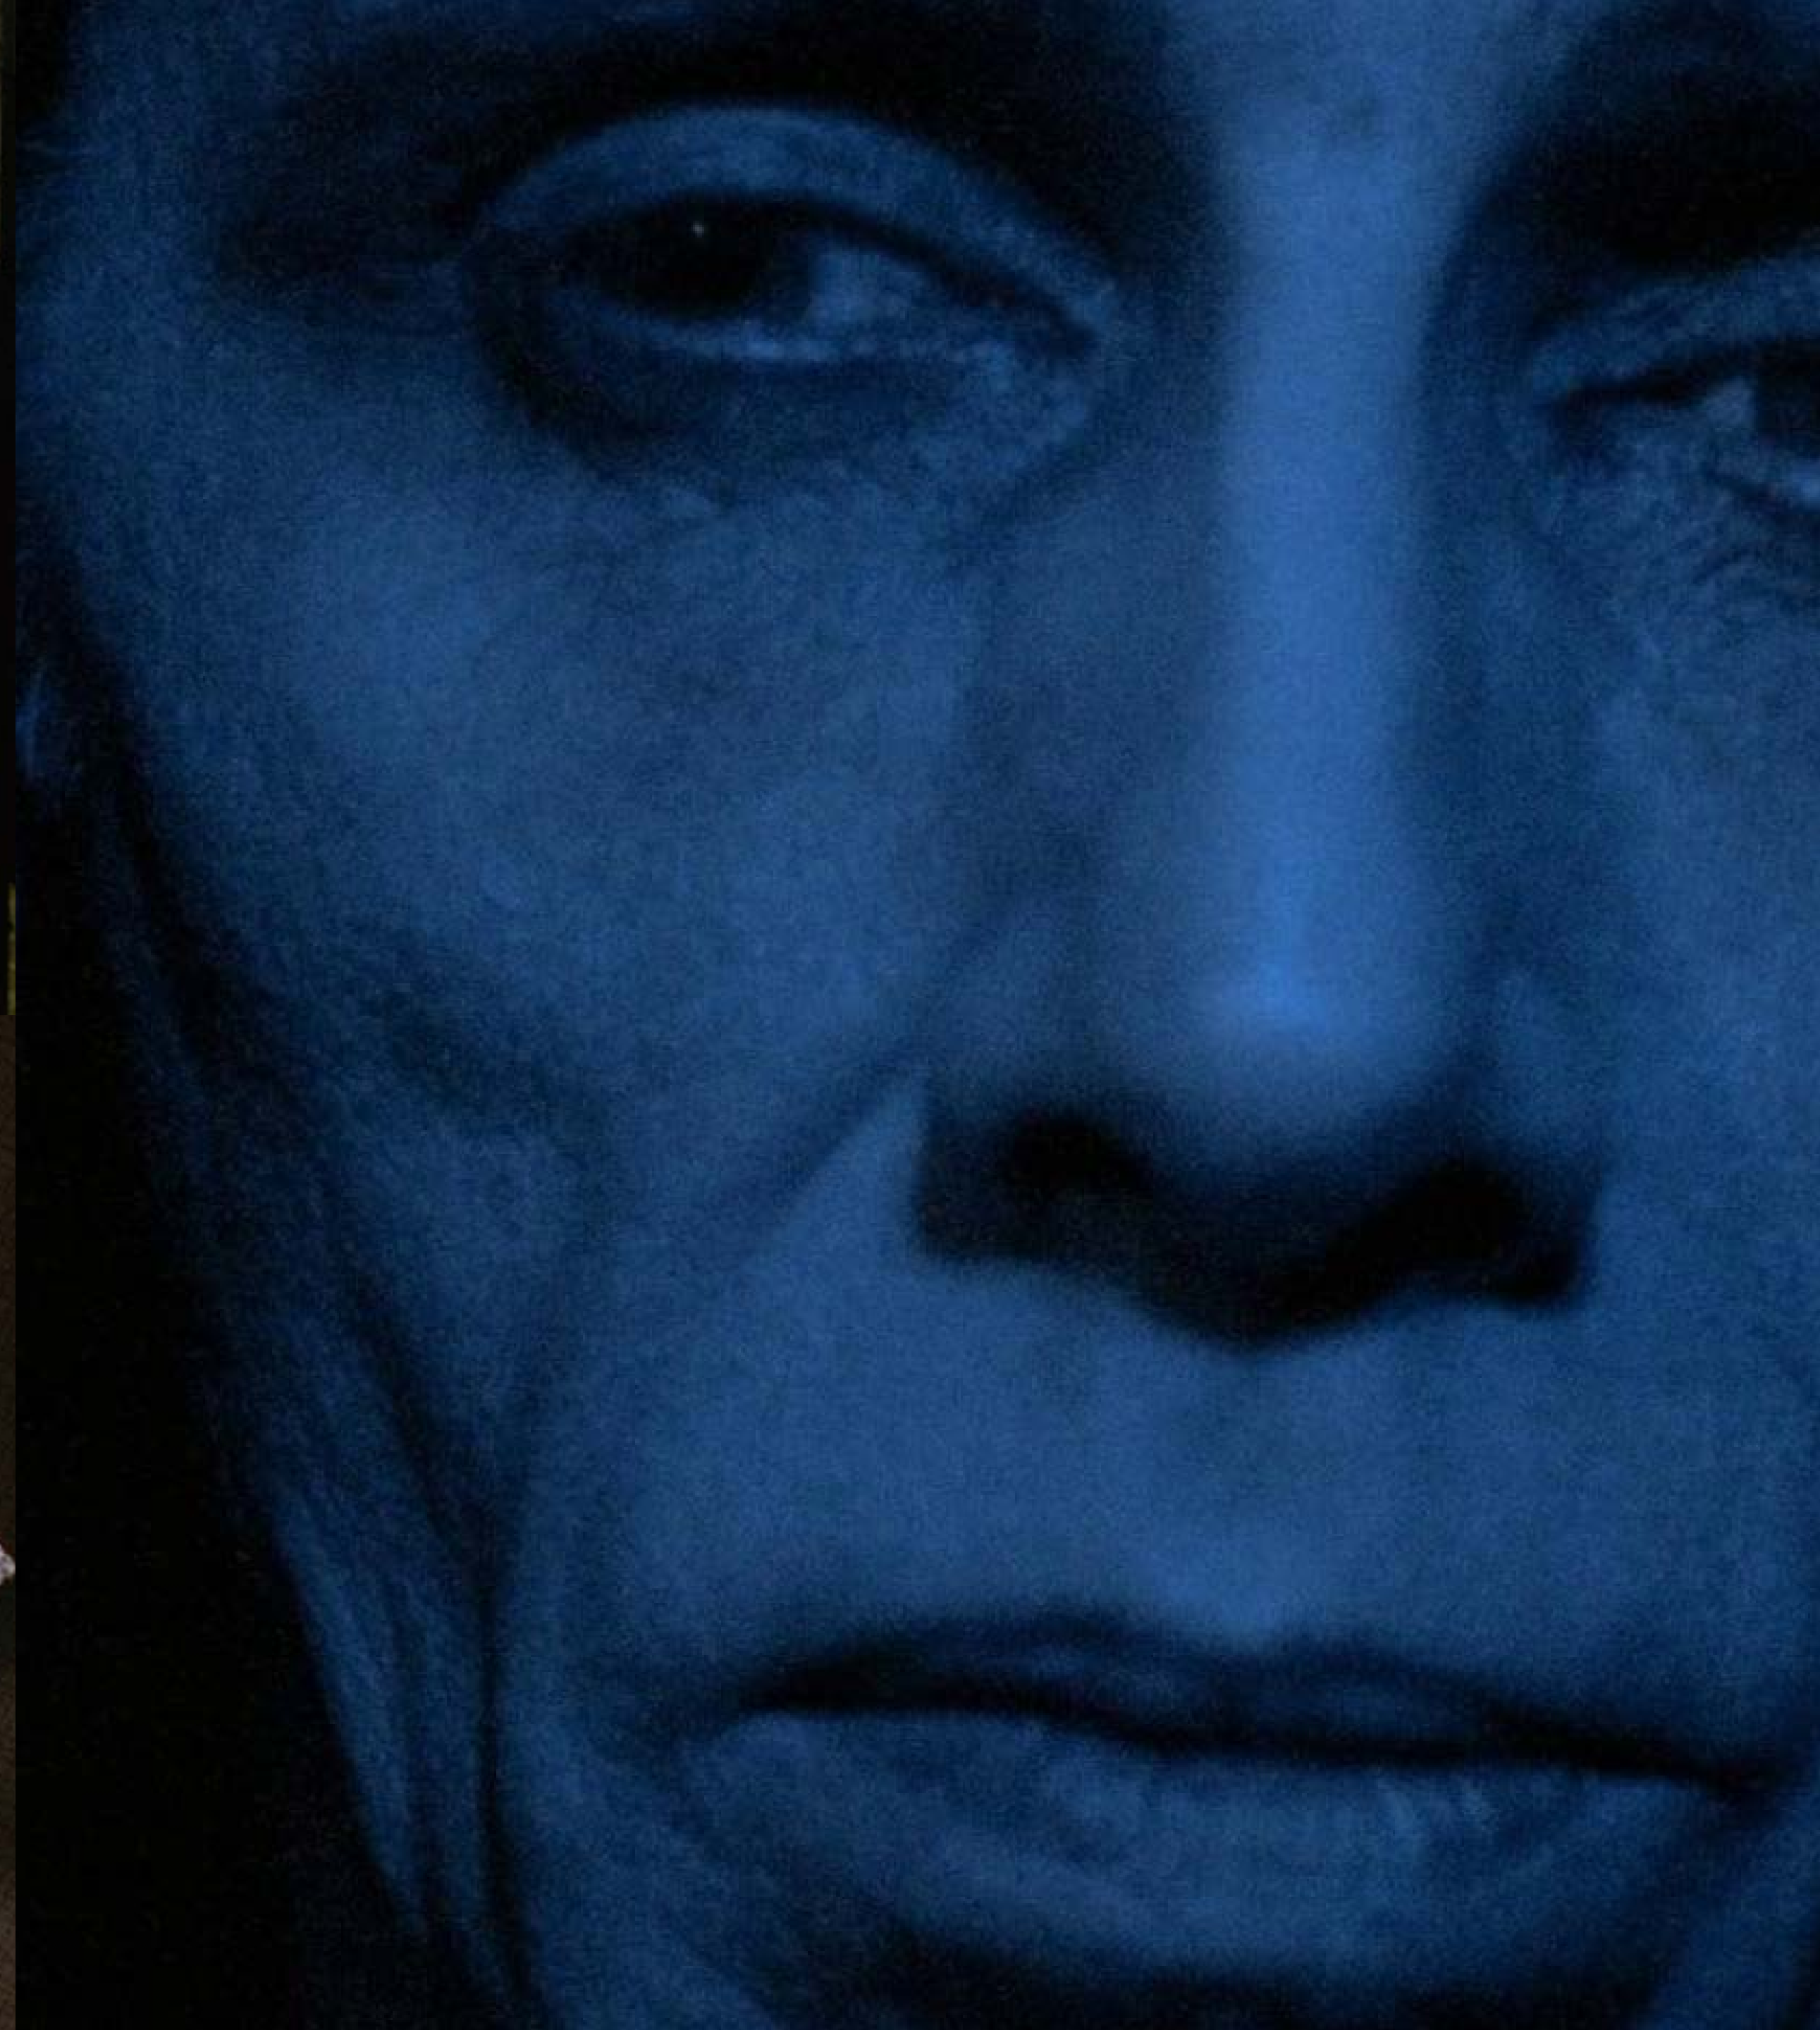

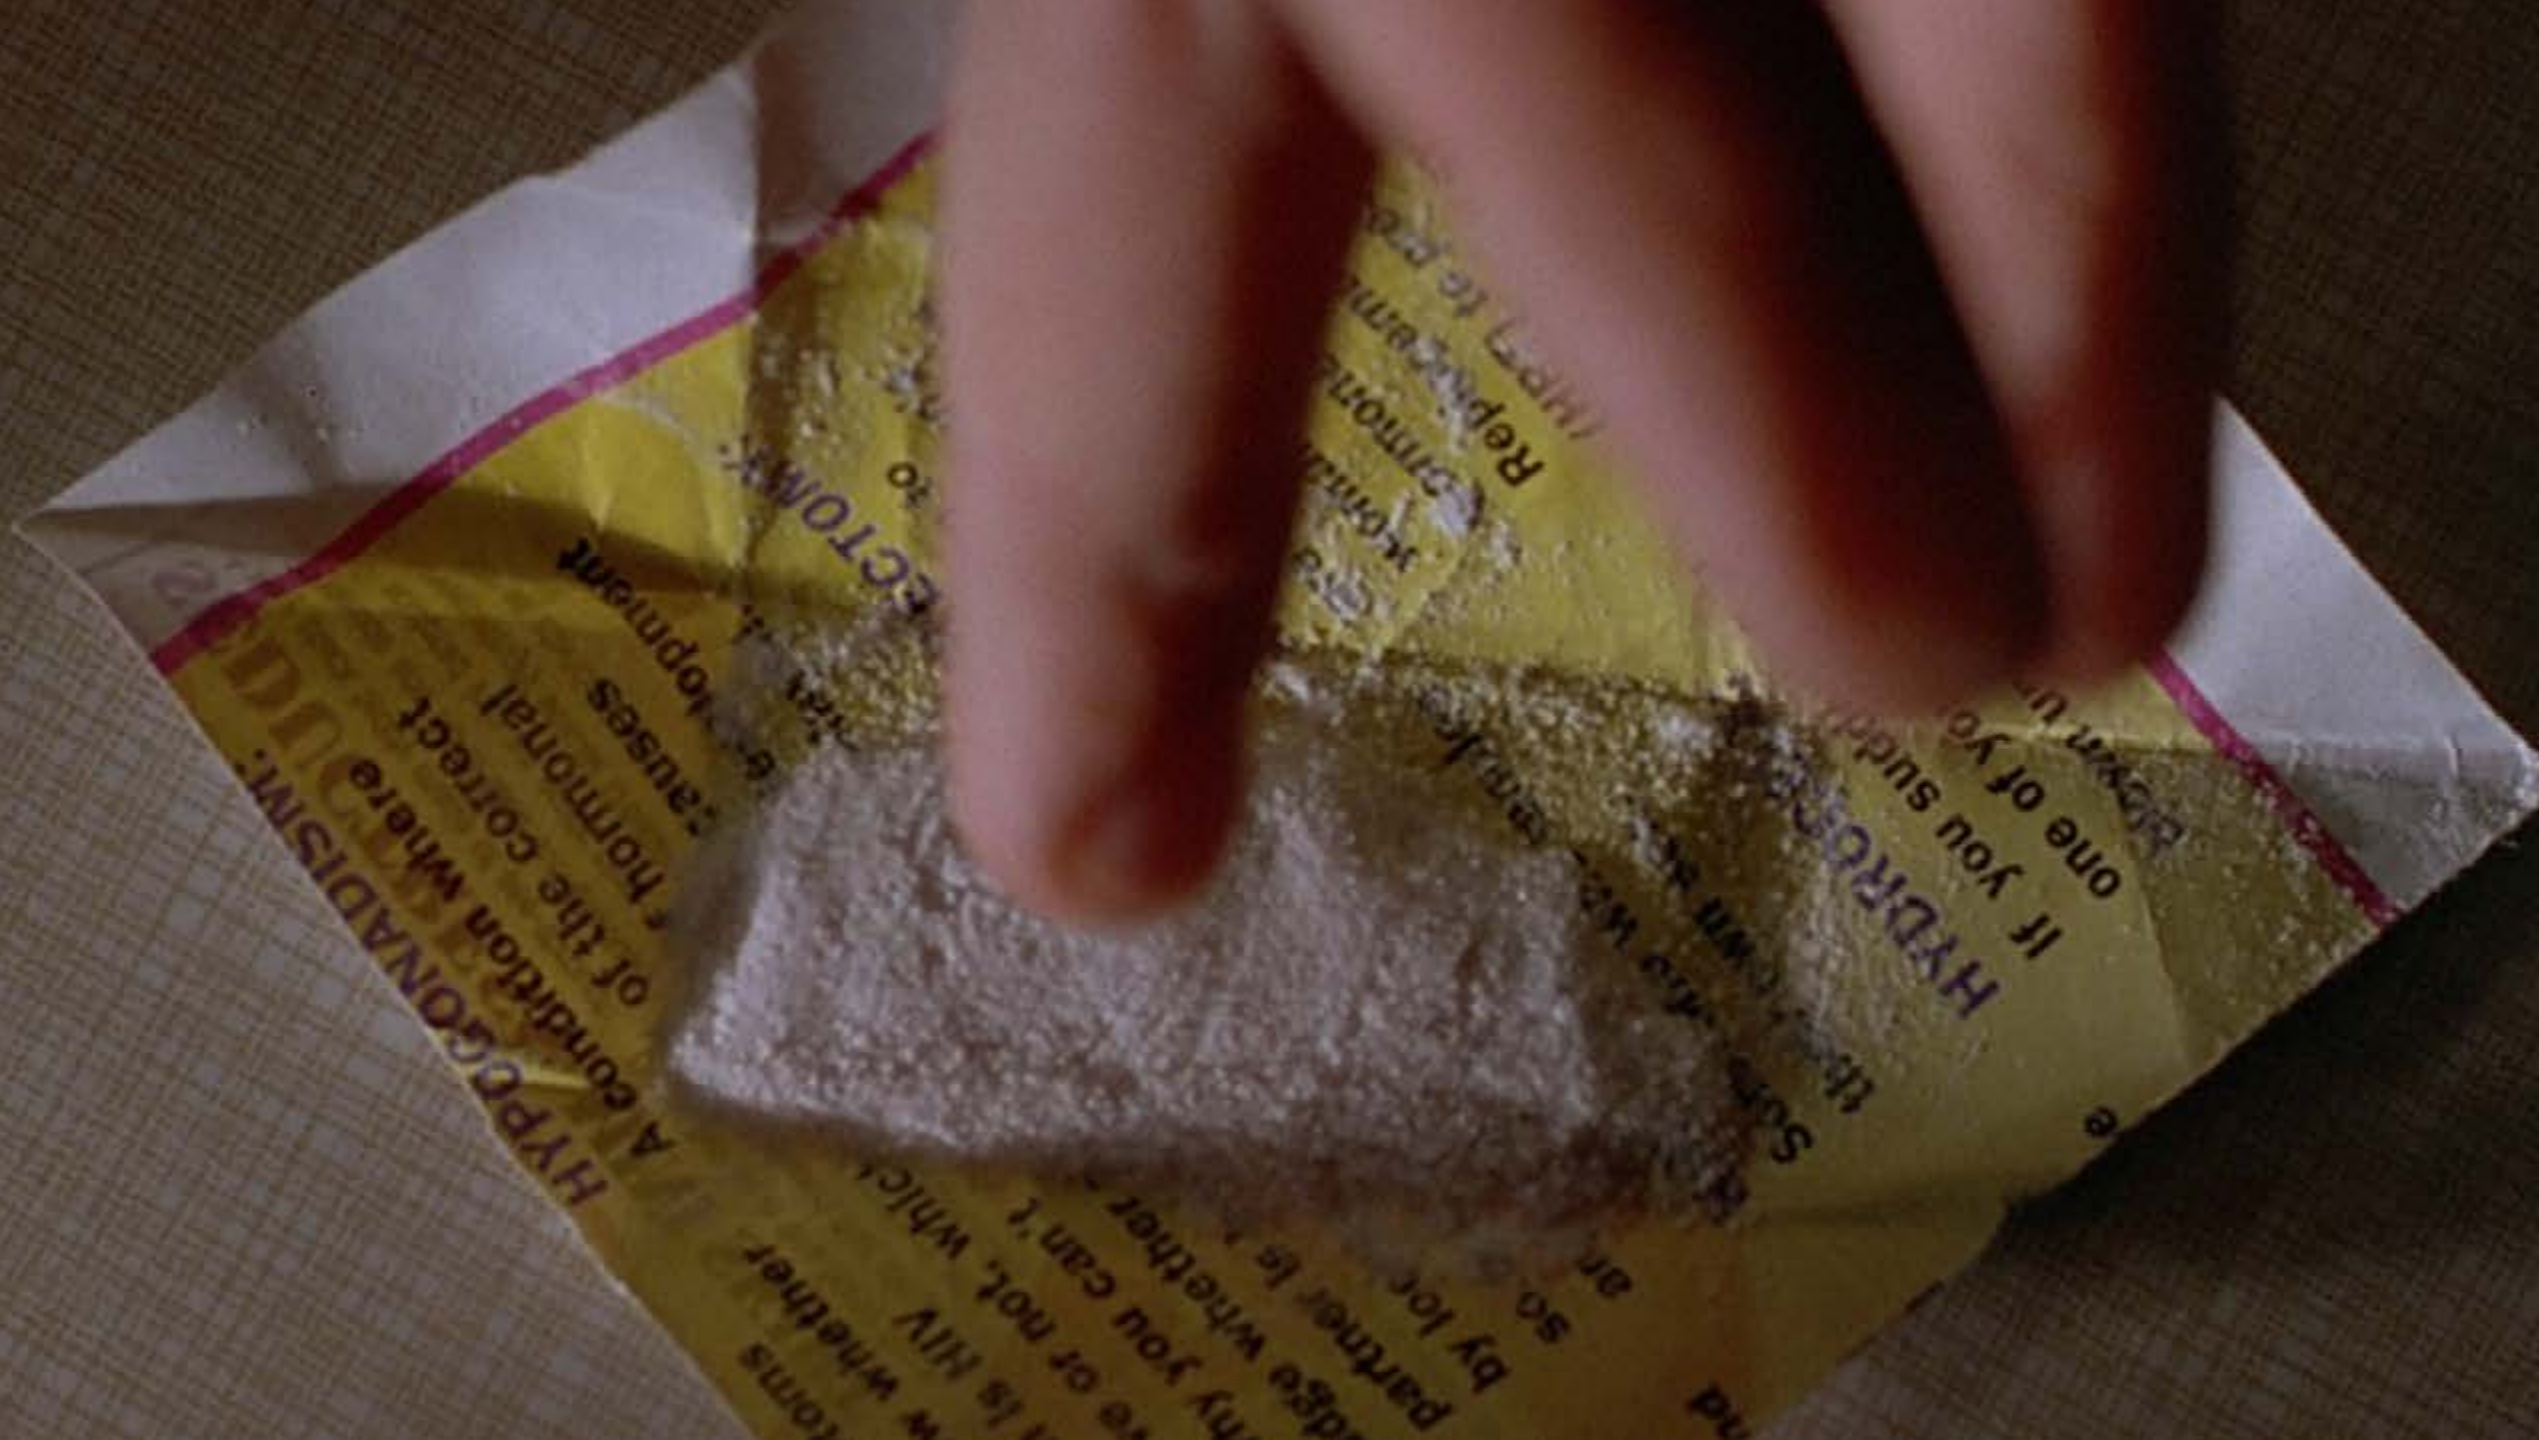

***“The worlds gone to the dogs,
and the night, to the wolves.”***

When REED GREENLAW, a working-class stick up artist,
reunites with his partner in crime LAROSSA,
a cold blooded dealer of exotic pets and narcotics,
they find themselves indebted to a cloak and dagger heroin syndicate,
and it's *sadistic henchmen*.

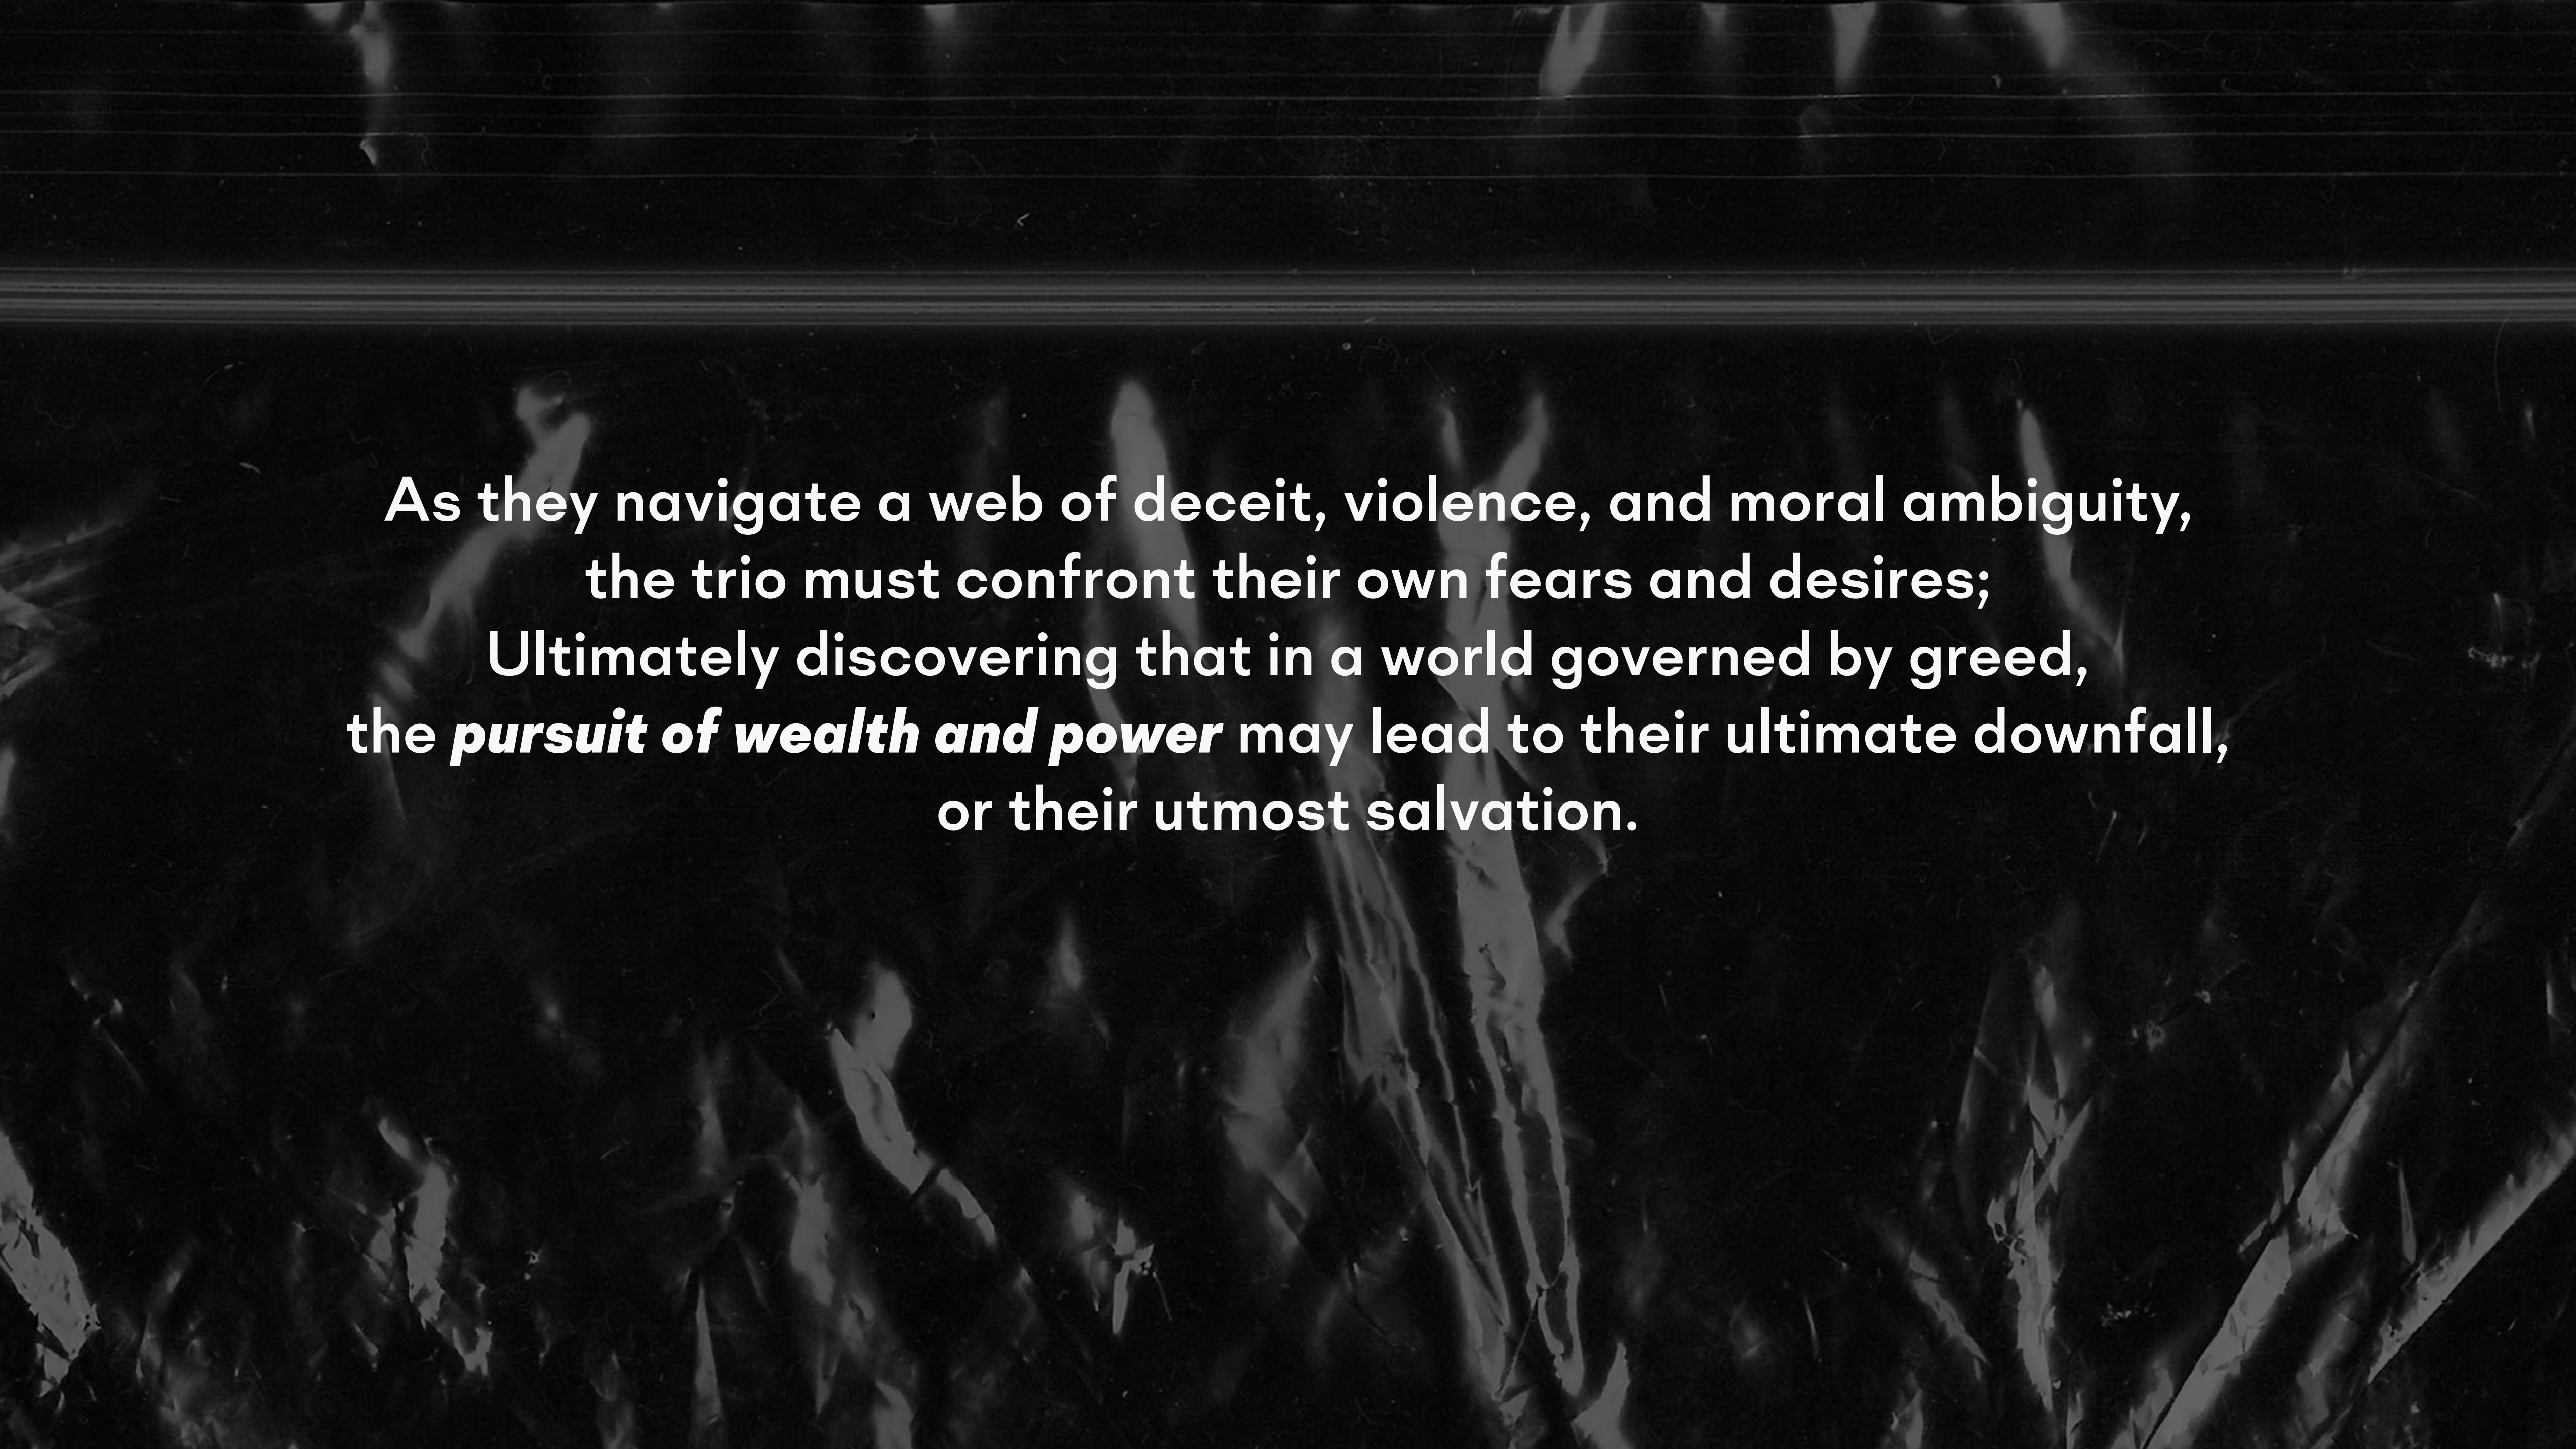

Caught between the two outlaws is JEN “COWBOY” MCKENNA,
a veteran stripper, desperate for a way out.
Together, they embark on a journey to repay the debt,
by kidnapping and extorting a **corrupt attorney**,
who has buried a **large sum of illicit cash** in an undisclosed location.

As they navigate a web of deceit, violence, and moral ambiguity,
the trio must confront their own fears and desires;
Ultimately discovering that in a world governed by greed,
the ***pursuit of wealth and power*** may lead to their ultimate downfall,
or their utmost salvation.

**“Some Odd Dollars” explores the dark underbelly
of late-stage capitalism,
where the line between friend and foe becomes blurred,
and survival *becomes the ultimate currency.***

***“I’ve been out of the saddle a while,
but I didn’t forget how to ride.”***

- Reed Greenlaw

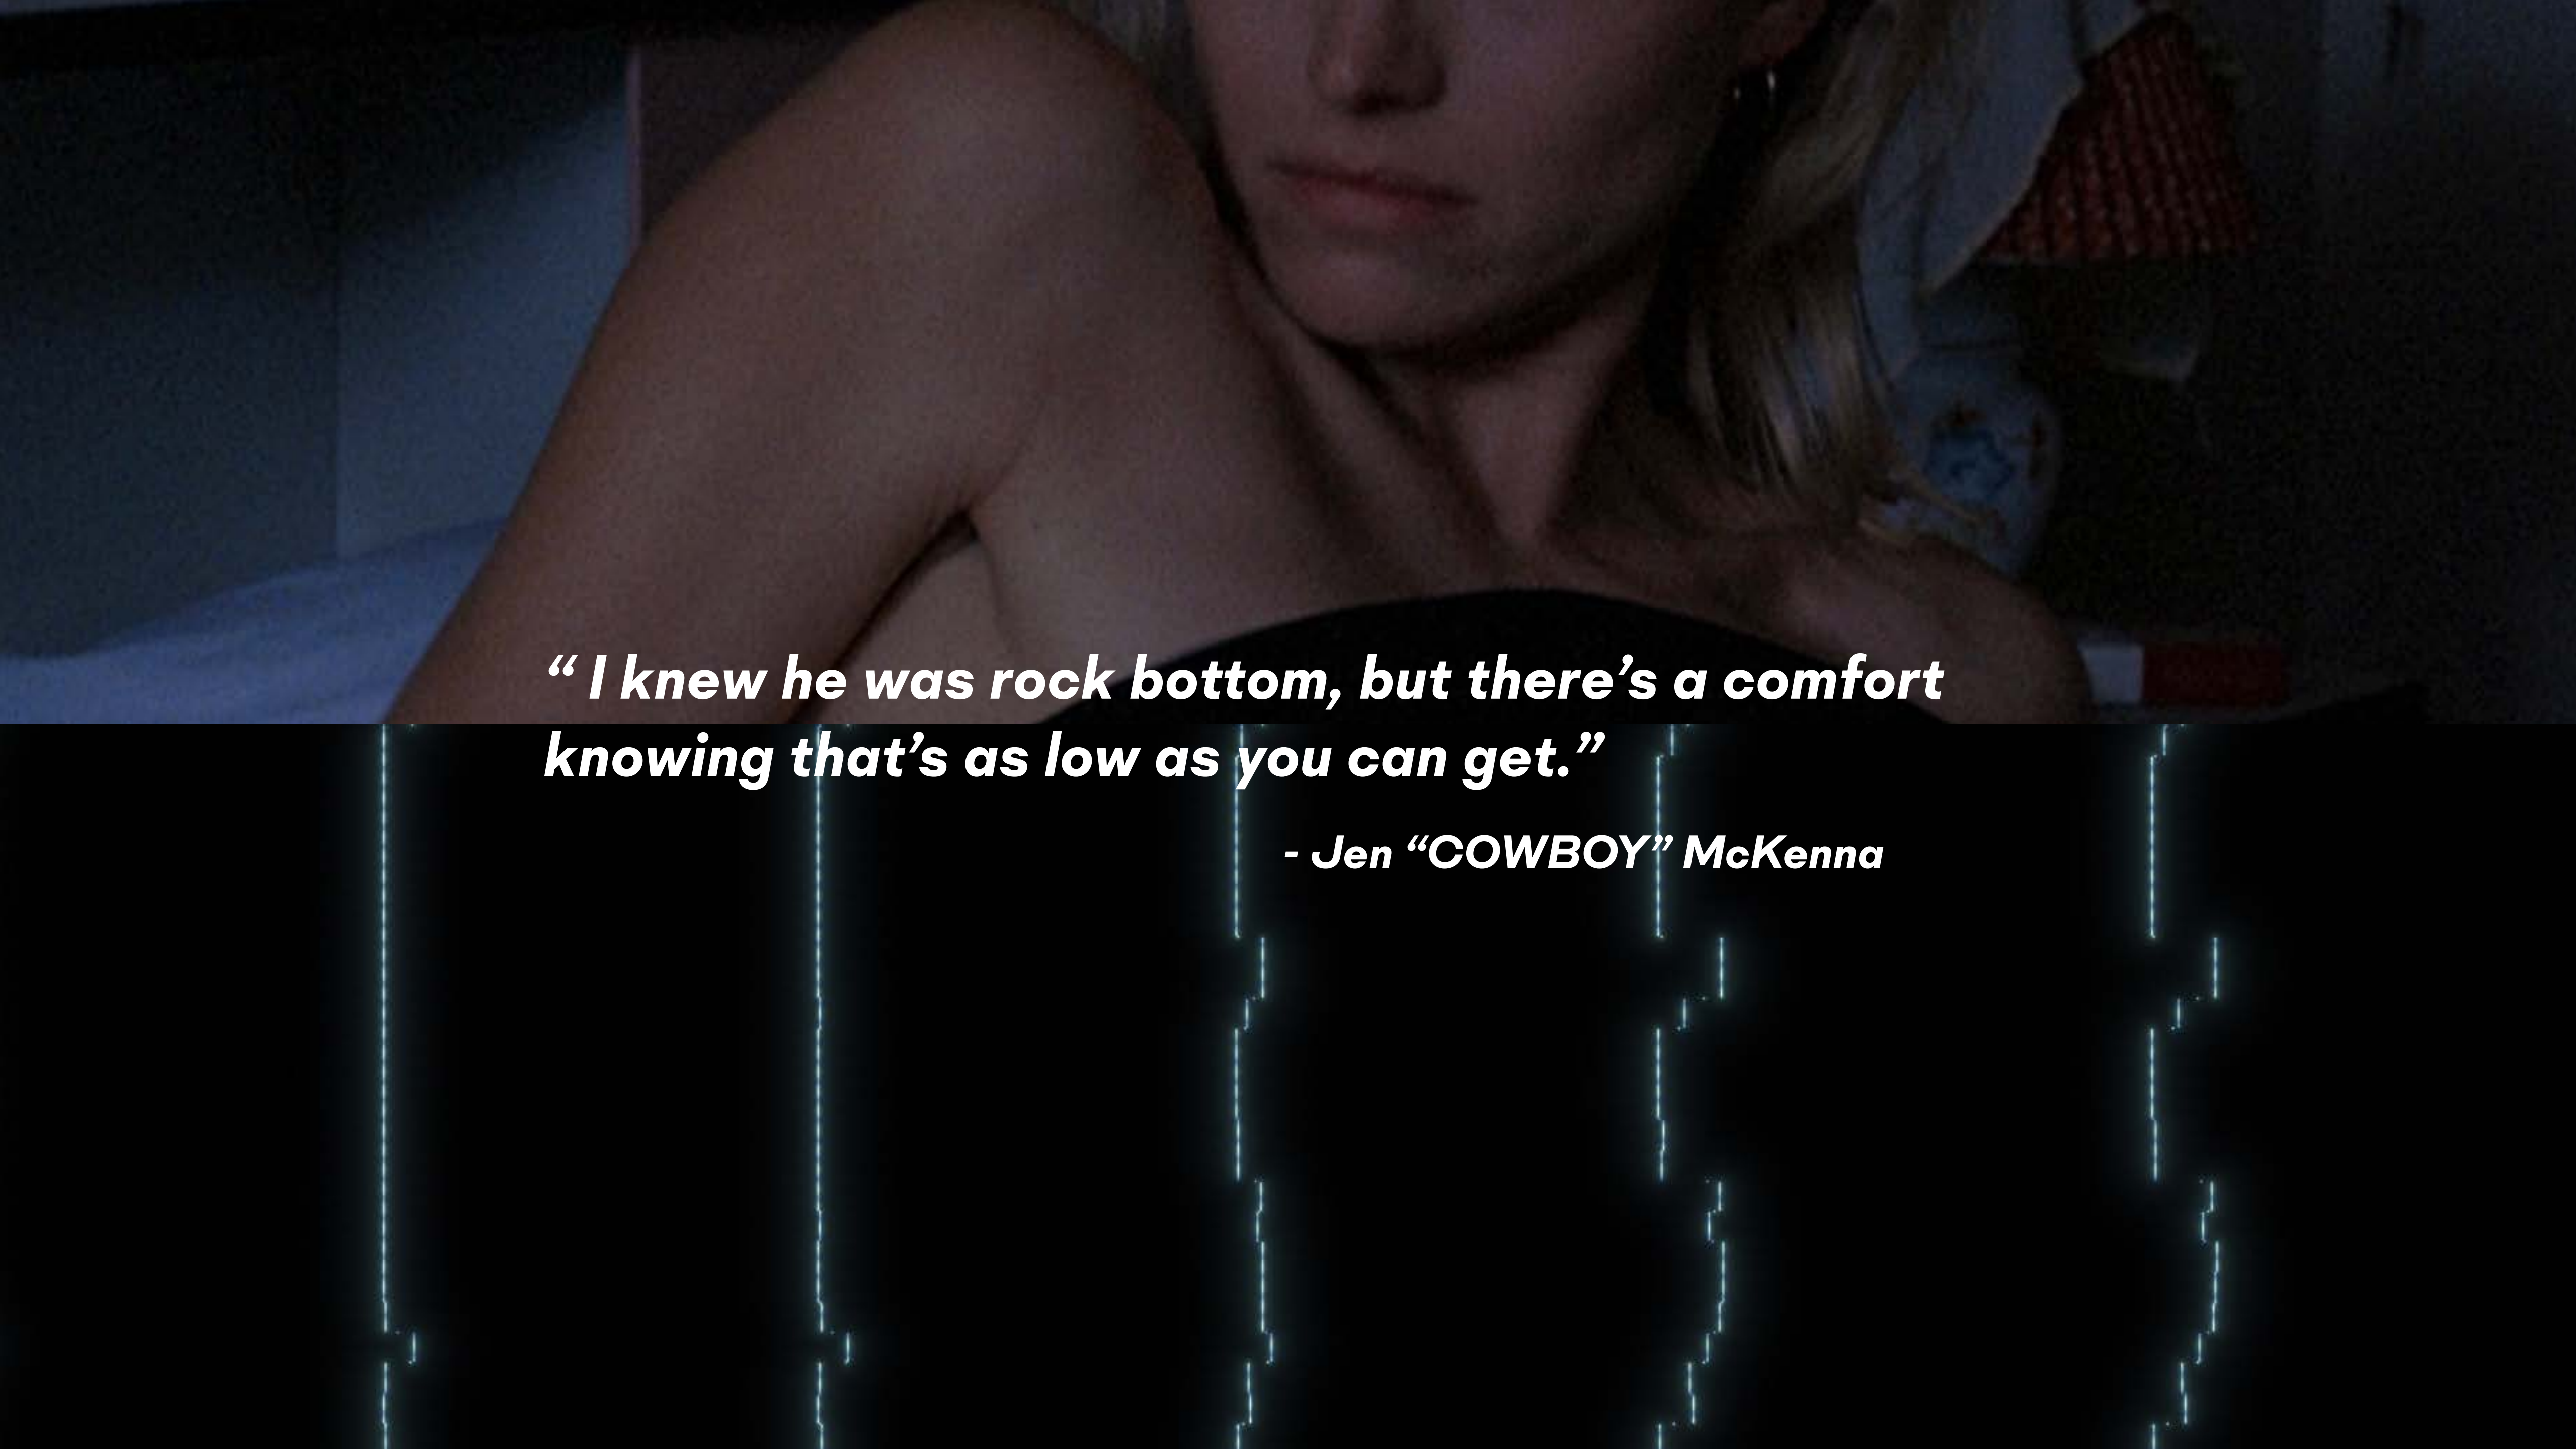

“Take a look around, In times like these, people wanna get high.”

- Larossa

“I knew he was rock bottom, but there’s a comfort knowing that’s as low as you can get.”

- Jen “COWBOY” McKenna
